

Jonathan is someone who has lived an extraordinary life from a very young age. He has chosen a life of high adventure and excitement. He has consistently taken on challenge after challenge, adventure after adventure in his private and business life. He has continually stretched himself and set and achieved higher and higher standards. He has faced risks that for many would be the subjects of nightmares, yet has consistently seized opportunities whenever and wherever they appeared. He is somewhat of an enigma, just when you have him pigeon holed, you can learn something new about him that changes your perception of him.

He is undoubtedly a "thought leader"; some may say business guru or philosopher. He has undertaken considerable research and is an international best selling author with in excess of \$3.8 million of sales. His latest book "The Business Voyage – Secrets of Business Success and Fulfilment Revealed", has been endorsed by no less than nine CEO's of UK top 1,000 companies, the Director General of the Institute of Directors and Commander in Chief Fleet of the Royal Navy. He is also an experienced business person, with a massive variety of experiences from cleaner to CEO and Chairman of a publicly quoted company. He is also a true explorer, adventurer and innovator in life and business. Despite all the above, he has the touch of an ordinary man.

He has an infectious enthusiasm for life and business and is determined to make a positive contribution to the world. He has been described as a man with "no limits", nothing daunts him, and often in the face of incredible adversity he maintains his level head and positive outlook.

He has already experienced and achieved more things than most ordinary people could manage in a lifetime and you can't help but feel that the best is yet to come. He is honest about his amazing highs and lows. He has made and lost £30 million, survived a hurricane in mid Atlantic and a recording breaking rescue during the two handed trans-Atlantic yacht race in 1990. Unlocking the secrets of success and fulfilment has become a lifetime's work. He combines research with vision, innovation and action. He walks the talk, lives a real life and says it how it is.

He is original, inspiring, motivating and enlightening. He has been described as "stunning in terms of energy" and is guaranteed to make an impression. He delivers insights that make sense of life and business and has the power to change attitudes and create a climate for positive change and improvements.
